

The Continental Coffee Shop and Servery Systems

STYLE, FORM & FUNCTION BEAUTIFULLY COMBINED

The Continental Bar and Coffee Shop system

Style, form and function beautifully combined

The Continental Bar and Coffee Shop System from Trimco combines the very latest in continental design with refrigeration excellence.

It creates the perfect environment for sandwich and coffee shops, wine bars and restaurants.

The system comprises refrigerated and ambient glass fronted display cases. These are combined with a sophisticated selection of bar and counter units, including corner modules, worktops and plinths, to form a complete display scheme.

The back bar area is fully catered for. There are wall mounted shelving modules with optional mirrored panels and integral low voltage lighting for a truly stunning backdrop. In addition, there are glass-fronted stainless steel storage and display refrigerators for drinks and food produce.

The system is available in a range of 6 distinctive designs, each of which can be produced in a choice of 3 handsome wood finishes. There are also 10 granite or 6 composite stone designs for the worktops and plinths, together with a selection of hard wearing coloured lacquer finishes for the counter modules. It all adds up to the most versatile and flexible display system obtainable anywhere in Europe.

The Continental Bar and Coffee Shop System is available exclusively in the UK from Trimco. The company offers a full consultation and design service, while technical support is provided by its national dealer network.

Decoration C

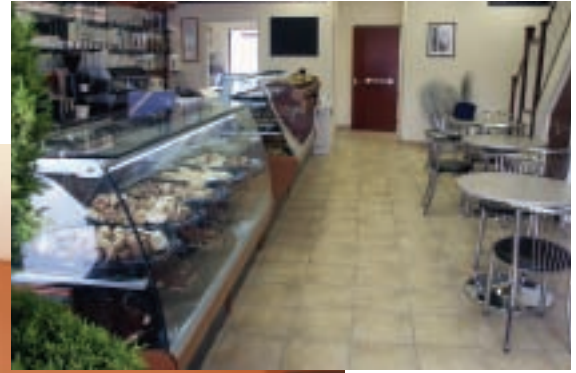

Decoration C is the ultimate system of bars and display counters for today's most fashionable restaurants and café bars. It includes stylish wood, sleek and hard wearing stainless steel worktops and vibrant coloured lacquer finishes. Together with our versatile back bar and shelving systems, you can easily customise your individual scheme to suit your corporate image.

Decoration O

Decoration O is a stylish and distinctive range of modular bars and display counters, combining contemporary wood finishes with a sleek and eye-catching stainless steel trim. Worktops are available in a stunning selection of granite and composite stone designs. In addition, Decoration O can be customised to suit your own corporate style using a vibrant range of coloured lacquer finishes.

Decoration K

The Decoration K system in use at Townsend Place, an upmarket café bar in Kingswinford, West Midlands

Decoration K is a simple yet stunning design, with plain wooden panels in a choice of 3 wood finishes, granite worktops with matching plinths and anodised aluminium decorative rails. You can select from a wide variety of shelving modules and back bar storage units to create both a practical and superior scheme.

Decoration J

Decoration J has proved to be a winning formula at 'The Loft', a vibrant arts and crafts exhibition area attached to Leyhill open prison in Gloucestershire

Decoration J combines the elegance of a wood finish with sleek, robust stainless steel cladding for a stylish and practical scheme. The system can be enhanced by matching bread dispensing showcases.

Decoration L

Decoration L has been used to transform an old-fashioned and unprofitable café bar at Heriot Watt University in Edinburgh

Decoration L has a classical design, with curved wooden pillars and decorative wooden panels. This stylish finish can be complimented beautifully by brass rails and gold effect trimming for the glass display cases.

Flat top glass format for the display of snacks

Curved glass format for the display of patisserie products

Decoration M

Decoration M is a striking addition to the Continental Coffee Shop range. It has a unique design with carved pillars and a granite-effect inlay panel to compliment the granite worktops and plinths.

Trimco Continental bar and counter units are constructed using robust stainless steel frames with ample storage space underneath the counter

A complete range of modular, back bar equipment and furniture

The Continental system is not just for display. It also includes an optional selection of fully functional back bar equipment and furniture for all of your catering and storage requirements.

Bread storage and display units

These beautiful back bar bread display units are made of laminated and solid wood. They have adjustable feet and built-in lighting. They are available in a choice of 3 wood colour options: Beech, Cherry and Dark Walnut, and are designed to match the Continental back bar shelving systems.

Storage refrigerators

Trimco supplies integral stainless steel refrigerators with glass doors. They have a temperature range of 0/+10 and fit neatly under the Continental shelving system for the display and storage of cold drinks and food.

Tables and sinks

Trimco also supplies a premium selection of stainless steel tables with built-in sinks, worktops and waste-disposal facilities.

It all adds up to a practical and ergonomically pleasing range of back bar products, which are the perfect compliment to the Continental Bar and Coffee Shop System.
