

Fusion Instant, Freshbrew and Bean to Cup

"...Proven Quality, Value and Choice..."

The Stentorfield Fusion from Crane Merchandising Systems is just what its name implies - a fusion of all the very best in drinks vending! This versatile machine offers a great range of instant, freshbrew and bean-to-cup (B2C) hot drinks, plus a selection of still and carbonated cold drinks.

The Fusion advantage:

For the customer:

- Superb choice of freshly made hot and cold drinks, including triple freshbrew option
- Simple, user friendly operation with an electronic message display
- Mild/Normal/Strong option for tea and coffee selections
- Large 600 cup capacity to accommodate the busiest locations

For the operator:

- Compact footprint combined with stylish design
- Simple price changing
- Quick and simple to clean and replenish
- Free vend or choice of payment systems
- Microprocessor control for reliability and flexibility
- Full audit facility at the touch of a button
- Twice daily self-clean programme

Visual Style To Enhance Any Location

The entire range of Stentorfield branded drinks vending and snack and food equipment from Crane Merchandising Systems is available in a choice of three paint finishes which, when matched with eye catching graphics from our Aqua Blue, Slate Red and B2C styles, provides visual and aesthetic impact to any location.

Machines can also be customised to complement a corporate house style or site location.

Fusion B2C & Fusion Xtra 'Bean to Cup'

"...Experience the aroma and taste of coffee brewed freshly from the bean..."

Fusion B2C and Fusion Xtra machines combine the convenience of a fully automatic beverage machine with bean to cup technology, offering the superior taste of freshly ground coffee and espresso-based speciality drinks wherever good quality coffee needs to be served quickly and consistently.

Fusion Xtra also features a refreshing freshbrew tea facility to satisfy all tastes and demands.

The Fusion B2C & Fusion Xtra advantage:

- Provides a wide range of espresso based hot drinks made with freshly ground coffee beans. Fusion Xtra also offers refreshing freshbrew tea
- Bean container easy to access and replenish
- Self-regulating grinder ensures a consistent gram throw and superb drink quality
- Able to vend paper cups for that authentic coffee house experience
- Brewer unit is easy to maintain and clean using a cleaning tablet, without removing the brewer from the machine
- Distinctive bean to cup graphic and drink selection panels

Fully Integrated Merchandising Solutions

Fusion, Fusion Xtra and Fusion Xtra Aqua machines are styled to co-ordinate seamlessly with the complete range of food, snack and combination machines from the Stentorfield range creating a totally integrated merchandising solution.

Speciality B2C Drinks Menu

- Fresh Coffee** A delicious, long coffee beverage made from freshly ground beans, served to your taste.
- Espresso** A rich intense dark aromatic short coffee, traditionally enjoyed with sugar. Not for the faint hearted.
- Americano** Black Coffee. A smooth rounded long medium strength beverage suitable for all day drinking.
- Cappuccino** A mixture of rich aromatic espresso combined with hot milk and a foamed head.
- Caffe Latte** A long mild milky drink made with a hint of coffee.
- Caffe Mocha** A full cup of indulgent coffee, chocolate and milk with a foamed milk head.

Fusion Xtra Aqua

"...Bean to cup coffee selections plus refreshing Brita and UV filtered water..."

Fusion Xtra Aqua offers customers and consumers fresh, chilled, filtered water as well as bean to cup coffee, freshbrew tea and a range of speciality drinks, thus providing operators with a unique selling proposition. This new concept consists of the Fusion Xtra master unit, and the water dispense system, a slave unit that dispenses both still and carbonated Brita and UV filtered water.

The machine features two dispense points and cup drop units - one for water and one for hot drinks and flavoured cold drink options. It features a 600 cup capacity for each drink type and can vend clear plastic cups.

The Fusion Xtra Aqua advantage:

- Slave unit dispenses both still and carbonated Brita and UV filtered water
- Huge 1200 cup capacity - 600 for water and 600 for hot drinks and flavoured cold drinks
- Slave unit able to vend clear plastic cups
- Provides operators with a unique selling proposition
- Distinctive bean to cup graphic
- Slave unit fitted with an impressive fresh water graphic including Brita branding which is guaranteed to encourage customer usage

Innovative design, reliability and ease of use

Stylish, Compact Package

Fusion machines combine a compact footprint with stylish, modern design and end user practicality to provide a first class beverage vending solution.

Large, stylish graphics and easy to read drink selection decals help to promote the high quality drink choices available and encourage repeat usage.

Moving Dispense Head

Three different dispensing positions for hot drinks, cold drinks and hot water ensure that no cross-contamination occurs between consecutive drink selections.

Branding Opportunities

Offering branded products provides strong point-of-sale impact as well as customer recognition and reassurance that keeps them coming back for more. Fusion machines provide the perfect platform to attract these increased sales which in turn lead to increased profits!

Large graphic areas on all machines along with the drink selection decals, provide ample branding opportunities, increasing customer confidence and promoting sales.

Choice of Payment Systems

Machines are compatible as standard with all of the major cashless systems. Additionally they offer both coin operated and free vend options.

Jug Facility

The versatility of Fusion machines is extended with the addition of a jug vend facility*, ideal for serving groups of people and eliminating the need for separate beverage facilities.

* Instant selections only from bean to cup, Xtra & Xtra Aqua machines.
