

INTRODUCING

FLAVIA® BARISTA FROM MARS DRINKS

SUPPORTING THE WORKPLACE

ONE DRINK AT A TIME

At **Mars Drinks**, a segment of Mars, Incorporated, it is our goal to support businesses who want to provide great working environments for their people. We focus 100% of our energy and resources on the workplace, with the belief that people are the most important asset to any business. We strive to help people make the most of their day in nearly every working environment. All our solutions are tailored and are able to deliver a full selection of beverages for any type of moment, occasion or palette, in any place of connection.

100% DEDICATION TO THE WORKPLACE

MAKES OUR BUSINESS UNIQUE

WORKPLACE DESIGNED
TECHNOLOGIES.

WORKPLACE DESIGNED
PRODUCTS, DELIVERED
ON TASTE AND CHOICE.

HASSLE-FREE SOLUTIONS.

COMMITMENT TO
SUSTAINABILITY.

EMPOWERMENT AND
BELONGING FOR PEOPLE AT
WORK ACROSS THE GLOBE.

OUR BIGGEST INNOVATION

— NOW FITS IN A REALLY SMALL CUP —

THE ENGINE OF TOMORROW'S WORKPLACE

At **Mars Drinks**, we create great tasting moments at work. And for a workplace to thrive, it requires a nucleus. A heart. An engine.

That's why we didn't just set out to create a coffee machine; we set out to redefine what an office can be. A place that celebrates collaboration and communication. In other words, a place that creates moments.

INTRODUCING

THE NEW FLAVIA® BARISTA BY MARS DRINKS

The Mars Drinks FLAVIA barista is more than just a coffee maker; it's like having a barista in your office. That's because it's the only single-serve office brewer that crafts perfect coffees, teas, lattes, cappuccinos, and authentic espressos, all at the press of a button.

WE WEREN'T JUST
INSPIRED BY
MODERN DESIGN

.....
..... WE SET OUT TO DEFINE IT
.....

We collaborated with forward-thinking companies at the forefront of modern product design to
build the centerpiece for the office of tomorrow.

.....

THE FLAVIA BARISTA IS AS BEAUTIFUL AS IT IS FUNCTIONAL:

.....

1

Timeless design keeps the machine from ever looking dated.

2

Built for open spaces, with 360° looks that fit naturally on any countertop without disturbing the flow of the workplace.

3

Crafted with premium materials and finishes featuring piano black, brushed metal exterior, stainless steel, and an intuitive screen to match the machine's aesthetics.

**AUTHENTIC
DRINKS REQUIRE
AUTHENTIC BREWERS**

The FLAVIA barista is an exceptional machine. It makes coffee shop-grade espresso from the simplicity of a highly engineered packet—our Freshpacks, to be exact. It's smart and beautiful. Moreover, it's exceptional.

Our unique Freshpack protects our high quality ingredients ensuring you get a great tasting drink everytime.

COMPLEXITY WITHOUT COMPLICATION

Just because the FLAVIA barista makes sophisticated drinks doesn't mean it's a complex machine. It was built with ease in mind, with an intuitive screen that makes a bevy of beverages with the touch of a button. In short, FLAVIA barista makes a seemingly complicated experience reliable and hassle-free.

And because our machine is simple, brewing direct from the pack to the cup it will be reliable, easy to clean and will ensure your drink tastes just like it should.

FROM A SINGULAR EXPERIENCE COMES MANY OPTIONS

With the introduction of the **FLAVIA barista** comes a new portfolio of espresso blends: 100% Arabica **ALTERRA® Espresso** and **decaf**, plus **SEGAFREDO® Intenso**, **Delicato** and **Cafesenza**, previously only available to professional baristas.

Each espresso contains different taste notes and intensities, providing a range of flavours. In addition, it makes Mars Drinks' vast range of coffees, teas, hot chocolates, lattes and other signature blends, including:

HOT CHOCOLATE

MEETING EVERYONE'S HOT DRINKS NEEDS
AT THE
PRESS OF A BUTTON

WHAT MAKES A GREAT ESPRESSO

There are many components to an authentic espresso: the beans, roast, grind, temperature, pressure, size, time, crema. These components tend to be an afterthought or even ignored altogether by many office coffee machines. The FLAVIA barista efficiently calibrates all variables so you'll always get consistently delicious espressos, great filter coffees, real leaf and herbal teas, lattes, cappuccinos, and hot chocolates.

TECHNICAL SPECIFICATIONS

Weight:	35.6 kg out of box; 40 kg boxed
Dimensions:	Height: 432 mm Width: 554 mm Depth: 523 mm A depth of 60mm is needed behind the brewer for connectivity to mains electrical supply and plumbed water.
Power Supply:	230V, 50Hz, 1550W, mains lead is 1.7 metres long
